

1. Cancellation of Acceptance

The admissions process is subject to the Consumer Contracts (Information, Cancellation and Additional Charges) Regulations 2013. Once a student has accepted the offer of a place on a course, they have the right to cancel acceptance by informing the centre team in writing within 14 calendar days after completing the enrolment process. Cancellation within this period will entitle the student to be refunded fees paid minus the non-refundable deposit. We retain the right to charge a proportion of the total course fee for cancellation after this period as indicated in section 3 below. If a student enrolls past the course start date, the right to cancel date will begin from the date of enrolment and fees be calculated pro-rata to reflect a later start. Enrolment may take the form of a completed online enrolment form, a completed paper enrolment form or acceptance via email correspondence.

2. Withdrawals

A refund can only be calculated once a complete withdrawal is actioned in writing. Fees shall be refunded to the person or organisation paying the fees and not to any third party.

Any student member who is forcibly withdrawn as they have failed to disclose previous periods of study, specific educational needs or their full immigration status will be assessed individually as to whether they will be eligible for a refund on any fees paid on a case by case basis.

2.1 Complete Withdrawal

Students who completely withdraw are not expected to return to their course and shall receive a refund in line with the mechanism set out in section 3 below. Students member's liability will be calculated based on the date of withdrawal from the student in writing.

2.2 Temporary Withdrawals (student is expected to return to studies in the next academic year)

Student members who temporarily withdraw are, by definition, expected to return. The cancellation period does not apply to temporary withdrawals. The fee to be paid for the year in which a student temporarily withdraws will be calculated according to the mechanism set out in section 3 below.

For self-funding students, refunds will not be issued for temporary withdrawals and any resulting credit will remain on the student member's account and be carried forward to the following year to count towards fees for the next academic year.

Student member's who are funded by a third party or organisation must inform the funding body of their temporary withdrawal in writing.

Before returning to the course, it is the student member's responsibility to make the necessary arrangements with the enrolment team including confirming their intended return date. The Enrolment team will then communicate with Finance to ensure that the correct fee is charged for the student member when returning to study.

It is the student member's responsibility to ensure they have funds in place before returning to study. Student members will not be able to re-enrol without proof of method of payment.

Student members who temporarily withdraw remain liable to pay any outstanding fees (see 3 below) and re-enrolment will not be permitted until outstanding fees have been paid.

2.3 Retrospective Withdrawals

Retrospective withdrawals shall not normally be permitted. As stated previously, it is the student member's responsibility to notify us of their withdrawal at the point at which they intend to leave the course in writing. Should there be exceptional mitigating circumstances, which meant it was not possible to notify us at the correct time, please refer to section 5 below.

3. Fee Refund Calculation

The chart below confirms the standard mechanism for calculating fees for each course of study regardless of method of funding and is dependent on a student member's course start date. There is a 14 day cooling off period for all course from the enrolment date. The below calculation only applies after the 14 day cooling off period has passed.

4. Outstanding Fee Payments

Once a withdrawal has been actioned any outstanding fee shall remain on the student member's account and shall be pursued by the institution or its collection agents which may incur additional fees and may affect the student's credit rating.

5. Mitigating Circumstances

In addition to the mechanism for fee refunds set out in section 3, above, consideration shall be given to making complete refunds to students who have to withdraw due to exceptional mitigating circumstances. We shall consider each case on merit, however, please be aware that academic and financial difficulties are not normally regarded as acceptable reasons for any refund. Please refer to table below for acceptable and non-acceptable mitigating circumstances.

Such cases must be submitted to the Centre in writing.
